### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 3, line 1, the language, "The method of claim 2 wherein calculating" was changed to -- The method of claim 1 wherein calculating--.

In claim 10, line 1, the language, "The system of claim 9 wherein calculating" was changed to -- The system of claim 8 wherein calculating --.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The best US prior art Kawamura et al (2002/0069141) teaches a portable RFID tag and barcode reader. But, the best US prior art lacks the limitation of a parts demand value and a container allocated days number. The limitations lacking in the prior art, in combination with the other limitations clearly claimed in the application, are novel and unobvious.

The best NPL (*ERP: complexities, ironies, and advances.*) teaches suppliers, manufacturers, and containers. But, the best NPL lacks the limitation of a parts demand value and a container allocated days number. The limitations

Art Unit: 3627

lacking in the prior art, in combination with the other limitations clearly claimed in the application, are novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
